

Getting Started with Zoom

To access any of our online Zoom activities it's easier if you download the Zoom app onto the device you are using.

Here are a few pointers:

Apple iPhone/ipad - Install Apps

1. From a Home screen, tap App Store
2. Browse/search for the Zoom **app** you want to download
3. Tap or click the Get button.
4. Then tap **INSTALL**. ...

If prompted, sign in to the App Store to complete the **install**.

ZOOM Cloud Meetings should be **FREE** but do **check before you download**.

Apps normally say they are free or provide you with a cost or subscription option if they're not.
